

Furneaux Freight

Friday, 5 September 2014

Furneaux Freights position on the provision of a shipping service to Flinders and Cape Barren Island remains the same: that the company is willing, able and ready to continue to provide an efficient and reliable service.

To date Furneaux Freight have had no contact from the Minister, the Government or the Council in relation to the continuation of the shipping service to the islands.

Furneaux Freight has a purpose built vessel, all necessary infrastructure and machinery as well as committed employees capable of providing a safe, consistent, professional and reliable service to the islands.

Furneaux Freight remains willing to urgently meet with any stakeholders to resolve any current issues.
